EDUCATION

Georgia State University, Atlanta, GA
Bachelor of Science in Computer Science

August 2026 – May 2030
GPA: 4.00

PROJECTS

PantherNav | Next.js, React, TypeScript, Tailwind CSS, GoogleCloudAPI panther-nav.vercel.app

- Built a campus navigation platform that helps Georgia State students locate classrooms, buildings, and campus resources through an intuitive interface
- Developed a responsive full-stack web application using Next.js and React with a modern UI optimized for desktop and mobile
- Designed the application with scalability and clean component architecture in mind for future feature expansion

Bugz | Next.js, React, TypeScript, bugz-orpin.vercel.app

- Developed a collaborative bug tracking platform for software teams to report, organize, and manage development issues
- Built responsive dashboards and reusable React components to improve maintainability and user experience
- Applied modern full-stack development practices including API routes, database integration, and state management

ContextCard | Next.js, React, TypeScript context-card.vercel.app

- Created an AI-powered context card application that generates concise contextual information for users within a clean, interactive interface
- Designed reusable UI components with responsive layouts and smooth user interactions
- Focused on performance optimization, component reusability, and modern frontend architecture
- Deployed the application using Vercel with continuous deployment workflows

CERTIFICATIONS

IT Specialist: Software Development — Certiport, a Pearson VUE business/Issued [Month 2025]

- Demonstrates core software development skills including object-oriented programming, web applications, and databases

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Swift, C++

Frameworks & Libraries: Next.js, React, Tailwind CSS, SwiftUI, Node.js

Tools & Platforms: Git, GitHub, Supabase, Vercel, Xcode, VS Code

Concepts: Full-Stack Development, REST APIs, Database Design, OCR, Computer Vision, Responsive Web Design
